

# EUREKA TO SAN FRANCISCO

## 5 Days • 320 miles • Sept. 9-13, 2012

### Join the Climate Ride for COTAP.org

Climate Ride is a fully-supported, 5-day charity bike ride, the one and only multi-day charitable bicycling event that supports climate change and bike advocacy organizations. Climate Ride is the hub of the green movement and gives a national voice to your local community. By riding in Climate Ride you can raise funds for COTAP.org and any other beneficiary organizations you choose. In 2011, Climate Riders raised \$300,031 for 25 beneficiaries!

### About COTAP.org

Based in Oakland CA, Carbon Offsets To Alleviate Poverty ([www.COTAP.org](http://www.COTAP.org)) is a new 2012 beneficiary organization of Climate ride. COTAP is a new nonprofit which empowers individuals to address two of the world's biggest challenges: climate change and global poverty. COTAP connects individuals' carbon footprints with accredited forestry projects in least-developed countries which create measurable wages for the world's poorest people.

COTAP also seeks to address the injustice that forestry projects, despite their proven ability to improve lives for the poorest, have been largely overlooked by commercial carbon markets. You can transform your CO2 emissions into wages, improved livelihoods, and changed lives with our three projects in Nicaragua, Uganda, and Mozambique.

### The Details

- *Fully supported.* Daily showers, bike support, luggage transport, meals, snacks, and camping are taken care of.
- 4 nights of glorious California camping, including under soaring redwoods, within earshot of waves, and alongside the scenic Russian River.
